PURPOSE

To establish guidelines within the Nevada Department of Corrections for body cavity searches of inmates for contraband (**ACA 3-4184**).

AUTHORITY

NRS 209.131
NRS 209.423

RESPONSIBILITY

Custody Staff and Medical Division Staff are responsible to enforce this procedure.

DEFINITIONS

BODY CAVITY SEARCH - The physical inspection of any bodily orifice.

DIAGNOSTIC STUDY Radiographic examination (x-ray), MRI, CT Scan, etc.

APPLICABILITY

This procedure applies to all inmates within the Nevada Department of Corrections when body cavity searches are conducted.

PROCEDURES

624.01 BODY CAVITY SEARCHES OF INMATES

- 1.1 Any search or inspection of an inmate's body cavity, other than visual or metal detector inspections, will be conducted in a medical setting under the direct supervision of authorized medical personnel.
 - 1.1.1 If feasible, medical staff will conduct a diagnostic study before conducting the body cavity search.
 - 1.1.2 Before conducting the body cavity search, the custody staff that are requesting the search will attempt to contact the Nevada Attorney General's Office, Litigation Division.
 - 1.1.3 Any physical intrusion into an inmate's body cavity must be performed by a physician or mid-level practitioner.
- 1.2 A body cavity search of an inmate will only be initiated when there is reasonable belief that an inmate has secreted contraband within a body cavity (**ACA 3-4185**).
- 1.3 Reasonable belief may be established from the following evidence:
 - 1.3.1 Confidential information from a reliable source.
 - 1.3.2 Irregularities found in the area of the body cavities during an unclothed body search.
 - 1.3.3 Detection of contraband on the person of an inmate's visitor after physical contact with the inmate, and with reasonable belief that the visitor's possession of contraband was for the purpose of smuggling it into or out of an institution.
 - 1.3.4 Any other objective evidence that would indicate that the inmate has contraband secreted in a body cavity.
- 1.4 All searches other than routine searches and each progressive step must be under the general supervision of supervisory staff not less than the level of a correctional sergeant.
- 1.5 Authorization to initiate a body cavity search requiring any degree of intrusion must be given by the Warden, Acting Warden, or AOD after consideration of the following:

- 1.5.1 Any advice provided by the Attorney General's Office that before conducting the body cavity search.
- 1.5.2 Assurance that reasonable belief is not dependent upon the outcome of the search.
- 1.5.3 The search is related to institution or facility security, the safety of persons, or to evidence involving a criminal offense.
- 1.5.4 Prior to the initiation of the first phase of the search, and before each successive escalation of the search, the individual will be given ample opportunity to voluntarily remove and surrender the contraband.
- 1.5.5 Documentation will be as outlined in Section 1.3 of this Regulation.
- 1.6 In conducting any search of an inmate's body cavity, the individual's right to privacy of his or her own body may be abrogated to the extent necessary to preserve the security of the institution and the safety of persons (**ACA 3-4186**).
- 1.7 Inmates will be asked to sign an Inmate Consent for Body Cavity Search, DOC Form 2566, authorizing a body cavity search.
 - 1.7.1 Two staff witnesses will also sign the consent form.
 - 1.7.2 If the inmate refuses to sign this will be so noted on the form. They will be advised that a non-consensual, forcible body search may take place.
- 1.8 The forcible retrieval of contraband by intrusion into the inmate's body will be avoided except as follows:
 - 1.8.1 When a physician or mid-level practitioner has determined that failure to remove the contraband presents an imminent danger to the life of the inmate; or
 - 1.8.2 The contraband is clearly identifiable and constitutes a clear and present danger to the security of the institution or safety of other persons; and
 - 1.8.3 The contraband must be retrieved but cannot be retrieved by any less intrusive or forcible manner.
 - 1.8.4 surgical removal of contraband from the body of an inmate will be the decision of the Medical Director/designee and in keeping with the rights of the individual.

1.9 Complete and detailed documentation of all body cavity searches will be submitted to the Warden by all staff involved in the process, including Medical Division personnel.

1.9.1 The report will include the following information:

1.9.1.1 Chronology of events leading up to the search and escalation of the search process.

1.9.1.2 Name and rank of all persons participating in the search process or supplying information that justified the search.

1.9.1.3 Whether or not the inmate signed a consent form for the body cavity search.

1.9.1.4 All evidence and information regarding the justification for each degree of the search.

1.9.1.5 Results at the conclusion of the search.

1.9.2 The person authorizing the body cavity search (Warden, Acting Warden, AOD) will send a complete, comprehensive report to the Director outlining the evidence relied upon in establishing reasonable belief. A complete report from the Medical Division personnel involved, detailing how the search was accomplished, what problems, if any, occurred, and the final results will also accompany the report to the Director.
